2. Please punch up-to-date personal record forms on CARBOHYDRATE. (MIB-4-1949, paragraph 4, stated that completed agent control forms would be submitted as soon as our relations with him justified it.) We should also be interested in CARBOHYDRATE's current MIB, GAI, and covert SPD status, as well as details as to Updike's cover and the security aspects of the operation.

1. Project CARBOHYDRATE is approved from 1 January 1949 through 30 June 1949. We have allotted a total of 150 DM to CARBOHYDRATE to cover his salary for this period. Our only criticism of what looks like a monthly handled and highly productive operation is the lack of monthly or bi-monthly operational progress reports. Although the distribution mentioned in MIB 194 and MIB 418, of October 1948, seem to have reached completion, we are in the dark as to how this was accomplished. No time record or progress reports between receipt of the previous Project Approval form (MIB 4-1948, 30 June 1948) and the present one, except for MIB 4-1949 which recommended reviewing CARBOHYDRATE under MATTING.
